## **DETAILED ACTION**

### ***Allowable Subject Matter***

**Claims 1-21 are allowed in view of the prior art.**

The following is an examiner's statement of reasons for allowance:

As for claims 1, 9, and 17, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a method and apparatus for measuring the aberrations of a negative lens (claims 1 and 9), and a method for measuring the aberrations in a convex mirror (claim 17), in combination with the rest of the limitations of the above claims.

With further regard to the claims, the applicants' arguments, dated December 20, 2004, lay out detailed reasons for the allowability of the claims. In particular, the prior art fails to obviously teach the combination of elements required for the method and apparatus to function, while substituting a negative lens for the positive lens in the LaFleur reference would cause the apparatus to fail to function, therefore not enabling it to read on the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420.

The examiner can normally be reached on Monday through Friday.
